1.0 GENERAL INFORMATION

1.0 GENERAL INFORMATION

1.1 Application Overview

UNA PET is a web-based user application designed for program evaluation within the Computer Science Department at the University of North Alabama. Students have the ability to submit C++ source code files (.cpp files) for evaluation. Instructors have the ability to execute these files through the user interface against specified requirements that include the desired output and runtime. Instructors may also make

comments and add grades that are viewable to students. Students are able to test programs against test cases set by instructors until the deadline for an assignment. UNA PET may be used as an alternative method for instructors to grade programs that offers a built in compiler and output comparison tool.

1.2 Acronyms and Abbreviations

1.2.1 UNA PET:

The name of the tool; University of North Alabama Program Evaluation Tool; The user interface will be branded as such.

2.0 GETTING STARTED

2.0 GETTING STARTED

The UNA PET is a web-based tool. Users of this tool will be required to have a compatible web browser and a reliable network connection.

2.1 User Access Levels

This application has four user access levels: administrator, instructor, supplemental instructor, and student. Each user's abilities are described below and in further sections.

2.1.1 Students

Students will be able to login, logout, request a new password, change his/her password, upload C++ source code files (.cpp), view his/her uploaded source code, and view his/her grade/result.

3.0 USING THE APPLICATION

3.0 USING THE APPLICATION

This section details all actions within the application.

3.0.1 Login

1. Navigate to <http://cs-srv-02/>

UNA PET Login

Username:

Password:

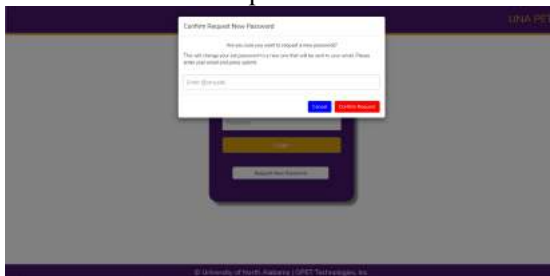

Login

Request New Password

2. Enter your assigned username associated your UNA Portal account.
3. Enter your password.
4. Click → Login.

3.0.2 Request New Password

1. If password cannot be remembered: Click → Request New Password

UNA PET

Request New Password

Enter your email address to request a new password.

This will change your email password to a new one that will be sent to your email. Please enter your email address below.

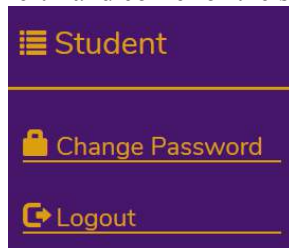

Email Address:

Submit

2. Enter a valid email and click submit.

3.0.3 Logout

1. Click the dropdown menu in the top left-hand corner of the screen.

Student

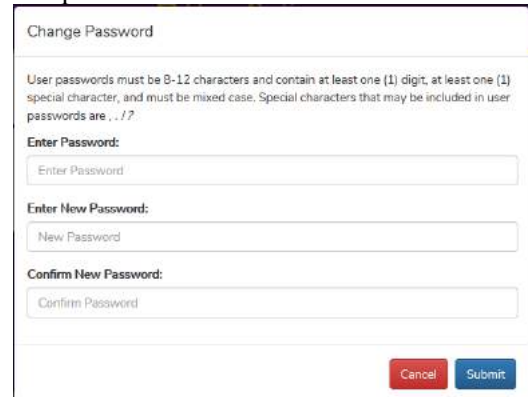

Change Password

Logout

2. Click → Logout

3.0.4 Change Password

1. Click the dropdown menu in the top left-hand corner of your screen.
2. Click → Change Password.
3. This screen will be displayed and prompt for current password and new password.

Change Password

User passwords must be 8-12 characters and contain at least one (1) digit, at least one (1) special character, and must be mixed case. Special characters that may be included in user passwords are . , ! ?
